

Protect your kids!

Cyberbullying and Safety Assemblies for all

Dave DeCelle from the National Center for Missing and Exploited Children is coming to North Warren on May 30<sup>th</sup> for the day. He will present three sessions to our students based on grade level. K-3 will attend Kidsmartz- 4 Simple rules, 4-12 will attend Internet Safety and Cyberbully in two separate sessions divided by grade levels, so that content can be age appropriate.

At 7pm that evening, May 30<sup>th</sup>, we hope all parents and community members will join us for the Parent Presentation from Dave. This will introduce the audience to the main online risks of basic Internet safety concepts. Cyberbullying, revealing too much information, sexting, and online predators are discussed. He will also discuss how to monitor usage and communicate about internet usage with your children.
