

## **Process for Determining Academic Intervention Services for North Warren Elementary School Kindergarten - Grade 6**

*Please note the following process is used by North Warren to determine if an intervention is needed in ELA or Math.*

All students performing below the median scale score between a level 2/partially proficient and a Level3/proficient on a grade 3-8 English Language Arts (ELA) or mathematics state assessment shall be **considered** for AIS.

Upon identification of a student for consideration for AIS, the district will use a district developed procedure applied uniformly at each grade level that considers a student's score on multiple measures of student performance.

The North Warren Central School District reviews and considers student specific historical data of student performance and Aimsweb benchmarking assessments when making AIS determinations. AIS placements are fluid and students are regularly progress monitored and evaluated to determine whether a student should remain in AIS.

The North Warren Central School District determines whether a student is required to receive AIS based on review of **multiple measures** and then utilizes their Rtl plan to monitor the placement of individual students.
