

North Warren Central School District

7-12 Student Handbook 2023-2024

Student Rights and Responsibilities

1. Mission Statement

At North Warren Central School, we feel that learning is best achieved in an orderly, purposeful atmosphere, which is free from threat of physical harm and limited in classroom distractions. It is our desire to maintain a learning environment that is not oppressive, but is supportive of teaching and learning.

We realize that within North Warren Central School there needs to exist an atmosphere that is orderly without being rigid, quiet without being oppressive and generally conducive to achievement of desired goals and objectives. We want to promote a school climate that is warm and responsive, emphasizing learning and providing instructional support for learners.

Maintaining an active responsive learning environment is one of our greater challenges. We know that the effort is needed because a well-disciplined school not only promotes goal achievement, but significantly promotes the ideal that students become self-disciplined managers of their own actions and resources.

2. Student Rights and Responsibilities

Students in the North Warren Central School are provided an equal opportunity to pursue an education. All students possess those rights of citizenship guaranteed by the Constitution of the United States and The State of New York. We feel that these citizenship rights may not be altered, abridged or obstructed in any way, except through due process of law.

In order to preserve individual rights while promoting learning, there is a need to recognize the rights of others. Therefore, students must assume responsibility for the way they exercise their rights. Students need to recognize the boundaries of their rights and accept consequences for their actions. All students should promote the dignity of and respect for the rights of others.

We know that working toward mutual trust and understanding will lend support to responsible use of rights. By applying the concept of mutual respect, we may be better able to promote learning and development of self-discipline, a sense of responsibility and acceptance of others.

Rules and procedures are established to assure fair and equitable operation of a school. All students are expected to know and comply with the rules listed in this handbook. Rules and procedures outlined in this handbook will govern student behavior at all times during school hours, on school grounds and after school hours for extra-curricular activities, alternative learning programs and on approved activities off school grounds.

Students are responsible for complying with the directions or instruction of any other adult in the school placed in a position of authority over students. If students feel the directions given are unfair or contrary

to school procedures, or if students feel the person is exceeding appropriate authority, or is impolite, students should follow the directions and then later report the incident to the Principal.

Students should demonstrate self-respect and respect for others and their property.

The district is committed to safeguarding the rights given to all students under state and federal law. In addition, to promote a safe, healthy, orderly and civil school learning environment, all district students have the right to:

- A. Participate in school activities, on an equal basis regardless of race, color, creed, national origin, religion, gender or sexual orientation or disability.

North Warren Central School students shall display common sense and good taste in their manner of dress. Clothing that limits full participation in school activities such as science laboratories, technology projects, or physical education activities, etc. will not be permitted. Students and their parents have the primary responsibility for ensuring acceptable student dress and appearance. Teachers and all other district personnel shall exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting.

Students shall:

A. Wear shirts that appropriately cover their upper body. Shoulder straps for tank tops should be three fingers wide. The staff member who gave the warning will send an email to notify the main office and cc: the rest of the teachers that will have the student in class on that day.

2nd offense: If a student receives a second offense, either on the same day or on a subsequent day, the student will be sent to the main office to speak with the principal regarding the specifics of the dress code and they shall be required to modify their appearance to come into compliance with the dress code. Compliance may be accomplished by the issuance of a large tee shirt to be worn over the offending clothing. An email will be sent to the main office and a cc: copy to the classroom teachers who have that student.

3rd offense: A student that receives a 3rd offense, either on the same day or on a subsequent day, will be required to call home and have their parent or guardian bring appropriate clothes to school before continuing with the day. A disciplinary note will be entered into Schooltool.

Any student who repeatedly fails to comply with the dress code shall be subject to further discipline, up to and including, out of school suspension.

5. Prohibited Student Conduct

The Board expects all students to conduct themselves in a civil manner, with proper regard for the rights

and welfare of other students, district personnel and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-discipline and students must learn to assume and accept responsibility for their own behavior as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students: ability to grow in self-discipline.

The Board realizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others.

The building principal or designee must notify the appropriate local law enforcement agency of these code violations. The notification must identify the student and explain the conduct that violated the code of conduct and allegedly constituted a crime.

7. Disciplinary Penalties, Procedures and Referrals

A. Principles of Discipline and consequences of Behavior

Effective discipline deals directly with the problem at the time and place it occurs, and in a way that

students see as fair and impartial

Firm, fair and consistent disciplinary action serves the learner the best when changing behavior. In determining the appropriate disciplinary sanction, consider the following:

- 1) The student's age
- 2) The nature of the offense and the circumstances which led to the offense.
- 3) As authorized by the NY Education Law, the student's prior disciplinary record.
- 4) The effectiveness of other forms of discipline
- 5) Information from parents, teachers and/or others, as appropriate
- 6) Other extenuating circumstances With the exception of a serious penalty or referral to law enforcement, discipline will be progressive. Progressive discipline means that a learner's first offense will usually merit a lighter penalty than subsequent violations.

B. Range of Penalties

Students violating the code of conduct may be subject to the following penalties, either alone or in combination. Penalties will be applied by staff consistent with the learner's right to due process.

- 1) Oral warning-any member of the District Staff
- 2) Written warning-Bus Drivers, Teacher Aides/Teacher Assistants, Coaches, School Counselors, Teachers, Principal or Superintendent.
- 3) Written notification to parent-Bus Driver, Monitor, Coaches, School Counselors, Teachers, Principal or Superintendent.
- 4) Detention or other age-appropriate in-school penalty-Teachers, Principal, Superintendent.
- 5) Suspension from transportation-Principal, Superintendent.
- 6) Suspension from athletic participation- Athletic Director, Principal, Superintendent.
- 7) Suspension from social or extracurricular activities-Activity/Club Advisor, Principal, Superintendent.
- 8) Restitution for the value of stolen or damaged property-Principal, Superintendent.
- 9) Suspension of other privileges—Principal, Superintendent.
- 10) In-school suspension- Principal, Superintendent.
- 11) Removal from classroom-Teacher, Vice Principal, Principal or Superintendent.
- 12) Short-term (five days or less) out-of-school suspension-Principal, Superintendent or Board
- 13) Long-term (more than five days) out-of-school suspension- Principal, Superintendent or Board
- 14) Permanent suspension from school-Superintendent or Board

C. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the

penalty being imposed. In all cases, the student must be informed of the alleged misconduct and school personnel must investigate, to the extent necessary, the facts surrounding the allegation. All students will have an opportunity to present their version of the facts in connection with the imposition of the penalty.

1) Detention: Teachers, Principal and the Superintendent may use before, during or after school detention as a penalty for student misconduct when deemed appropriate by the principal or Superintendent.

Failure to serve an assigned detention will result in further consequences. Detention is a time of study. Students are expected to arrive at detention with adequate work for the duration of detention. After school detention begins at 2:55 and ends at 3:55.

2) Suspension from transportation: If a student does not conduct himself/herself properly on a bus, the bus driver is expected to immediately notify the Head Mechanic and Building Principal. Students who become a serious disciplinary problem may have their riding privileges suspended by the Principal or Superintendent. In such cases, the student's parent/guardian will be responsible for seeing that students get to and from school safely.

3) Suspension from athletic participation, extracurricular activities and other privileges A student suspended from athletic participation, extracurricular activities or other privileges will be provided with a reasonable opportunity for an informal conference with the principal or athletic director to discuss the conduct and the penalty involved.

4) In-school suspension from classes to supervised study. The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment supportive of learning. The principal and the superintendent will then be authorized to suspend students from their regular classes who violate this code or school guidelines and place the students in an intensive supervised study program.

The suspended student is required to remain in the Suspension room, complete usual assignments provided by the regular teacher and leave the room only under direct supervision.

Any student returning from OSS will serve one day ISS before returning to a regular schedule. This will allow the student to get up to date on all of their work under supervision.

The student is restricted from all co-curricular activities such as: practices and dances and any sporting event until he/she has served the detention and returns to classes. A form will be provided to the suspended student so that he/ she may obtain work from his/her teachers prior to sitting the suspension.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law S 3214. However, the student will be provided with a reasonable opportunity, within a reasonable time, to speak with the person imposing the in-school suspension from classes to discuss the conduct and the penalty involved.

5) Teacher disciplinary removal of disruptive students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management strategies. These strategies may include practices that involve the teacher directing a student to briefly leave the classroom

to give the student an opportunity to regain his or her composure and self-control in a supervised setting. Such practices may include, but are not limited to:

- (a) short-term “time out” in the classroom or in an office.
- (b) sending a student to the principal’s office for the remainder of the class time only; or
- (c) sending a student to a guidance counselor. Time honored classroom management strategies such as these do not constitute disciplinary removals for purposes of this code.
- (d.) At times it may be necessary to suspend, remove or otherwise discipline students with disabilities as defined in this Code of Conduct to address disruptive or problem behavior.

When a student of any age is removed from class by a teacher, or whenever a student of compulsory attendance age is suspended from school pursuant to Education Law S3214, the district will take immediate steps to provide alternative means of instruction for the student. A “suspension” is never a suspension from education, but from the location in which education takes place.

8. Corporal Punishment

The use of corporal punishment is expressly prohibited in the North Warren Central School. This shall not be construed to prohibit the use of physical force for the following reasons:

- 1) To protect oneself from physical injury.
- 2) To protect another pupil or teacher or any other person from physical injury
- 3) To protect the property of the school or of others.
- 4) To restrain or remove a pupil whose behavior is interfering with the orderly exercise and performance of school district functions, powers or duties, if that pupil has refused to comply with a request from further disruptive acts.

9. Disciplines of Students with Disabilities

When a student with a disability violates the discipline code of the school, which he/she attends, a meeting of the building administrator and the special education teacher shall be held to determine:

Whether the student is capable of following the school discipline code.

- 1. Was the behavior a result of an inability to understand the rules?
 - 2. Was the behavior the result of an inability to control inappropriate behavior?
- A. If the student is capable of following the school discipline code despite his/ her disability then the appropriate school regulations will be followed.
 - B. If the student is not capable of following the school discipline code because he/she cannot understand the regulations, appropriate actions to ensure understanding will be attempted
 - C. If the student is found to be incapable of following the school discipline code, after reasonable efforts have been made to obtain cooperation, because he/she cannot control his/her inappropriate behavior, then a CSE (Committee on Special Education) meeting will be convened to address the student’s behavior.
 - D. The Committee on Special Education will review the student’s Individual Education program, and if

appropriate, develop positive behavioral responses and options for dealing with inappropriate behavior, such as in school suspension, being sent home, loss of privileges, etc. through the development of a behavioral intervention plan.

E. If the behavior of a pupil with a disability is determined to be seriously non-compliant or even dangerous to himself or others, then the school principal must take immediate and appropriate action, followed by immediate notification of the home school when necessary and notification to the CSE. If this action includes suspension of the student, all legal procedures must be followed, including notification of the reasons for suspending the pupil, opportunity for the pupil to respond, opportunity for a parent conference, Superintendent's Hearing, if suspension is for more than 5 days.

For each proposed suspension, the District must ensure that the behavior for which suspension is being considered is not directly related to the pupil's disability, or caused by an inappropriate placement. If there is any question about the appropriateness of suspension, particularly in the case of pupils classified emotionally disturbed, the matter must be referred to the CSE. The CSE will consider the matter carefully, including the possibility of changing the pupil's placement.

If a pupil's total days of suspension exceed 10 days within any school year, the school principal will make an immediate notification to the CSE.

10. Student Interrogations and Searches

A. Interrogations by School Personnel

The Board is committed to ensuring a safe and orderly atmosphere on school property and at school functions. In order to achieve this kind of environment, persons authorized to impose a disciplinary penalty may question a student about an alleged violation of law or the district code of conduct. Under New York State Education Law and Commissioner of Education decisions, students are not entitled to any sort of "Miranda"- type warning before being questioned by school officials, nor are school officials required to contact a student's parents before questioning the student. However, school officials will tell all students why they are being questioned.

B. Searches by School Personnel (general guidelines)

The board authorizes the superintendent, building principal, school nurse and district security to conduct searches of students and their belongings if there is reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

C. Searches of student lockers, desks, computerized information systems and other school storage places

The rules of this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks, computerized information systems and other school storage places. Students have

no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, computer hard drives and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent. Students have exclusive use of a locker only so far as other students are concerned.

D. Removal of clothing during a student search

A search may require a student to remove some of his or her clothing, such as an outer coat or jacket, shoes, socks, sweaters, hats or vests, in conjunction with an investigation under this code of conduct. Students may also be required to empty pockets or shake out bulky clothing in the presence of school officials. If a school official believes it is necessary to conduct such a search of a student, the school official may do so only in the presence of another school official. The only exception to this rule is when the school official believes there is an emergency situation that could threaten the safety of the student or others.

E. Police involvement in searches and interrogations of students

The district is committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. In contrast to the authority of school officials, who have authority under the Education Law to question students without parental consent, police officials have limited authority to interview or search students in schools or at school functions or to use school facilities in connection with police work.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall contact a parent/guardian and offer the opportunity to be present during the interview, except in the case of an emergency or in exigent circumstances as determined by a school administrator in consultation with law enforcement, when investigating an alleged crime committed on school property or at a school function, or when police are investigating an alleged crime against a child by a parent/guardian.

11. Visitors

Please note that the school is a place of work and learning and certain limits must be set for visits. The building principal or designee is responsible for all persons in the building and on the grounds.

The school policy is to accept only those visitors who have legitimate business in the school. All visitors and guests must register at the front desk in the atrium. Parents are always welcome, but all visitor rules apply.

Visitors are expected to leave promptly when their business is completed. Students are not encouraged to bring guests. Absolutely no visitors during exam weeks.

12. Public Conduct on School Property

The district maintains an orderly, respectful learning, working environment that is supportive of students learning and teachers teaching. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this code, “public” will mean, all persons when on school property or attending a school function including but not limited to, students, teachers, other school employees, visitors, those using school property under a permit granted by

the district and district personnel.

13. Units of Credit

A. Units of Credit

1) A unit of study means at least 180 minutes of instruction per week throughout the school year, or the equivalent, approved by the Principal.

2) A unit of credit is earned by:

a. Attending the required number of classes and after course completion, demonstrating mastery of a course of study objectives, as outlined in the syllabus by achieving a passing average for the course of study.

b. To earn credit without taking a course of study, students must be approved for a course challenge prior to the end of the add/drop period. All challenges must be approved by the principal. They then must achieve a passing score of at least 85% on a State Education Department approved examination in a course of study and successfully complete either an oral examination or a special project. A limit of 6 credits may be earned in this fashion.

c. Regents credit is earned by achieving a passing average in a given unit of study AND passing the associated Regents examination for the same.

3) To enter 9th grade, a passing average in core courses is required. Per the current promotion policy, if a student is failing two or more subjects in June, they will be required to attend summer school, or be retained at their current grade level.

4) The procedure for scheduling of students will include the provision that students must take a minimum of 6.5 credits per year, (if schedule allows), which will require taking elective courses that may or may not be the primary choice of the student. In a full A-Day / B-Day rotation, students will not be given more than a full and ½ period study hall combined. If two elective choices are available during a given period and one is needed to prevent greater than the 1.5 study hall scenario from taking place, the student will be required to choose one of the two elective courses.

5) Math and science credits will be taken during a student's senior year, so that they are more prepared for the STEM (Science, Technology, Engineering and Math) requirements of the 21st Century workforce. In order to be competitive in college or in the workplace, senior students should have math and science in their schedules to help them transition to their post-secondary goals.

6) To graduate- A student must earn a minimum of 22 credits. All work shall be completed by the final day of the course. No incomplete grades will be given except for students missing course requirements due to legally excused reasons.

7) Final grades for full year courses are calculated by averaging each marking period grade with the final exam grade, with each accounting for 20% of the final course grade. For one semester (half year) courses, each marking period will count for 40%, and the final exam will count for 20% of the final course grade.

Physical Education Credit:

All students shall maintain regular attendance and participation in physical education (PE) classes. Students must earn units of credit in PE by successfully achieving the goals and objectives of the PE program and regular participation is required.

A. Students failing to maintain regular participating attendance in PE classes for unexcused reasons shall not be granted course credit.

B. Students consistently absent or not participating may be placed in an alternate PE program.

C. Temporary PE excuses will be given only by the School Nurse or PreK-12 Principal. Excuses for one week or more required a doctor's note.

D. As required by State Law, PE excuses or limitations on participation for more than two (2) weeks must be excused by a note signed by a physician.

E. At the start of the school year, the PE teacher will distribute to all students: rules, procedures and requirements.

14. BOCES

Students will be dismissed at the end of 4th period for an 11:00 departure on the BOCES bus.

Standard bus rules are to be followed. In instances when bus misconduct leads to a transportation suspension, the student is still responsible for attending their BOCES program. The student's parents/guardians will be responsible for their student's transportation, and the student will not be permitted to drive themselves.

Students may not drive themselves to BOCES except on occasions when this is necessitated due to emergencies, appointments, or BOCES related field trips; in these instances students must have a valid NYS Driver's License AND written permission from their parent/guardian for the specific day they are driving. Students are NOT allowed to ride with each other.

15. Class Rank for Graduation

Schedule changes may be requested until the Friday of the 1st full week of school for full year courses, and the Friday of the 1st full week of class for semester courses. Having a clearly defined and enforceable policy is essential to ensure that student motivation to attend each day becomes a lifestyle decision. It is hoped that this will become a habit that enters into their post-secondary plans and future employment.

SUMMARY OF POLICY

At the 9-12 grade level, any student with more than 20 total absences in a course will not receive credit for the course: both excused and unexcused absences count towards this total. (For a one-semester course a student may not have more than 10 absences). If a student is absent 20 or more days from any course, student removal will result and a "W/A" (withdraw/absence) notation will be entered on the student's

academic transcript.

At the 7-8 grade level, any student with more than 20 total absences in a course will be required to repeat the course the following year, and a W/A (withdraw/absence) notation will be entered on the students report card. Both excused and unexcused absences count towards this total.

The attendance policy, simply stated, will result in a loss of academic credit for the course(s) where excused and unexcused absences exceed more than 20 days (10 days for ½ year courses).

APPEALS PROCESS:

A parent or guardian may request a building level review of their student's attendance record. The Committee will make a final determination within 5 school days, during which time, the student may remain in the course(s). Committee Members:

- Grade appropriate School Counselor
- Administrator
- One of student's academic teachers
- Attendance Officer

It is the responsibility of the student to make up any class work and/or assigned homework as a result of absences. Students have one (1) day to make up work for each day absent. A student who has an unexcused absence will not be eligible to make up for work. Parents/Guardians will be informed concerning absenteeism.

In certain drills, different exits are blocked so that some practice in rerouting traffic may be experienced. All students will report to their designated area with their teacher.

Drills are also held regularly, in conformity with State regulations so that buses may be emptied through emergency exits.
